## Treatment Services provided by Centres with Treatment Licences (as at 1 August 2023)

### ART Unit, (IVFHK), Prince of Wales Hospital – CUHK
- In vitro fertilization (IVF)
- Artificial insemination by husband (AIH)
- Artificial insemination by donor (AID) / Donor insemination (DI)
- Removal of oocytes from ovaries
- Retrieval of sperm from testis
- Retrieval of sperm from epididymis
- Frozen-thawed/fresh embryo transfer (ET)
- Microinjection intrafallopian transfer (MIFT)
- Fallopian replacement of eggs with delayed insemination (FREDI)
- Intra cytoplasmic sperm injection (ICSI)
- Pre-implantation genetic diagnosis (PGD)
- Storage of semen/sperm (donor/patient)
- Storage of oocyte (donor/patient)
- Storage of embryo (donor/patient)
- Storage of testicular tissue
- Storage of ovarian tissue
- Embryo donation
- Oocyte donation
- Assisted hatching
- Embryo micromanipulation (other than assisted hatching)
- Sex selection
- Surrogacy arrangement
- Other micromanipulation

### Central Diagnosis Clinic

### Centre of Assisted Reproduction and Embryology, HKU – Queen Mary Hospital
- In vitro fertilization (IVF)
- Artificial insemination by husband (AIH)
- Artificial insemination by donor (AID) / Donor insemination (DI)
- Removal of oocytes from ovaries
- Retrieval of sperm from testis
- Retrieval of sperm from epididymis
- Frozen-thawed/fresh embryo transfer (ET)
- Microinjection intrafallopian transfer (MIFT)
- Fallopian replacement of eggs with delayed insemination (FREDI)
- Intra cytoplasmic sperm injection (ICSI)
- Pre-implantation genetic diagnosis (PGD)
- Storage of semen/sperm (donor/patient)
- Storage of oocyte (donor/patient)
- Storage of embryo (donor/patient)
- Storage of testicular tissue
- Storage of ovarian tissue
- Embryo donation
- Oocyte donation
- Assisted hatching
- Embryo micromanipulation (other than assisted hatching)
- Sex selection
- Surrogacy arrangement
- Other micromanipulation

### Department of Obstetrics & Gynaecology, The Chinese University of Hong Kong (Prince of Wales Hospital)

### Dr Stephen CHOW Chun-kay
- Assisted Reproduction Centre, Kwong Wah Hospital
- In vitro fertilization (IVF)
- Artificial insemination by husband (AIH)
- Artificial insemination by donor (AID) / Donor insemination (DI)
- Removal of oocytes from ovaries
- Retrieval of sperm from testis
- Retrieval of sperm from epididymis
- Frozen-thawed/fresh embryo transfer (ET)
- Microinjection intrafallopian transfer (MIFT)
- Fallopian replacement of eggs with delayed insemination (FREDI)
- Intra cytoplasmic sperm injection (ICSI)
- Pre-implantation genetic diagnosis (PGD)
- Storage of semen/sperm (donor/patient)
- Storage of oocyte (donor/patient)
- Storage of embryo (donor/patient)
- Storage of testicular tissue
- Storage of ovarian tissue
- Embryo donation
- Oocyte donation
- Assisted hatching
- Embryo micromanipulation (other than assisted hatching)
- Sex selection
- Surrogacy arrangement
- Other micromanipulation

### HEAL Fertility Limited
- In vitro fertilization (IVF)
- Artificial insemination by husband (AIH)
- Artificial insemination by donor (AID) / Donor insemination (DI)
- Removal of oocytes from ovaries
- Retrieval of sperm from testis
- Retrieval of sperm from epididymis
- Frozen-thawed/fresh embryo transfer (ET)
- Microinjection intrafallopian transfer (MIFT)
- Fallopian replacement of eggs with delayed insemination (FREDI)
- Intra cytoplasmic sperm injection (ICSI)
- Pre-implantation genetic diagnosis (PGD)
- Storage of semen/sperm (donor/patient)
- Storage of oocyte (donor/patient)
- Storage of embryo (donor/patient)
- Storage of testicular tissue
- Storage of ovarian tissue
- Embryo donation
- Oocyte donation
- Assisted hatching
- Embryo micromanipulation (other than assisted hatching)
- Sex selection
- Surrogacy arrangement
- Other micromanipulation

### Hong Kong Assisted Reproduction Centre
- In vitro fertilization (IVF)
- Artificial insemination by husband (AIH)
- Artificial insemination by donor (AID) / Donor insemination (DI)
- Removal of oocytes from ovaries
- Retrieval of sperm from testis
- Retrieval of sperm from epididymis
- Frozen-thawed/fresh embryo transfer (ET)
- Microinjection intrafallopian transfer (MIFT)
- Fallopian replacement of eggs with delayed insemination (FREDI)
- Intra cytoplasmic sperm injection (ICSI)
- Pre-implantation genetic diagnosis (PGD)
- Storage of semen/sperm (donor/patient)
- Storage of oocyte (donor/patient)
- Storage of embryo (donor/patient)
- Storage of testicular tissue
- Storage of ovarian tissue
- Embryo donation
- Oocyte donation
- Assisted hatching
- Embryo micromanipulation (other than assisted hatching)
- Sex selection
- Surrogacy arrangement
- Other micromanipulation

### Hong Kong IVF Centre Limited
- In vitro fertilization (IVF)
- Artificial insemination by husband (AIH)
- Artificial insemination by donor (AID) / Donor insemination (DI)
- Removal of oocytes from ovaries
- Retrieval of sperm from testis
- Retrieval of sperm from epididymis
- Frozen-thawed/fresh embryo transfer (ET)
- Microinjection intrafallopian transfer (MIFT)
- Fallopian replacement of eggs with delayed insemination (FREDI)
- Intra cytoplasmic sperm injection (ICSI)
- Pre-implantation genetic diagnosis (PGD)
- Storage of semen/sperm (donor/patient)
- Storage of oocyte (donor/patient)
- Storage of embryo (donor/patient)
- Storage of testicular tissue
- Storage of ovarian tissue
- Embryo donation
- Oocyte donation
- Assisted hatching
- Embryo micromanipulation (other than assisted hatching)
- Sex selection
- Surrogacy arrangement
- Other micromanipulation

### Hong Kong Reproductive Medicine Centre
- In vitro fertilization (IVF)
- Artificial insemination by husband (AIH)
- Artificial insemination by donor (AID) / Donor insemination (DI)
- Removal of oocytes from ovaries
- Retrieval of sperm from testis
- Retrieval of sperm from epididymis
- Frozen-thawed/fresh embryo transfer (ET)
- Microinjection intrafallopian transfer (MIFT)
- Fallopian replacement of eggs with delayed insemination (FREDI)
- Intra cytoplasmic sperm injection (ICSI)
- Pre-implantation genetic diagnosis (PGD)
- Storage of semen/sperm (donor/patient)
- Storage of oocyte (donor/patient)
- Storage of embryo (donor/patient)
- Storage of testicular tissue
- Storage of ovarian tissue
- Embryo donation
- Oocyte donation
- Assisted hatching
- Embryo micromanipulation (other than assisted hatching)
- Sex selection
- Surrogacy arrangement
- Other micromanipulation

### IVF Centre/Obstetrics & Gynaecology Centre, Hong Kong Sanatorium & Hospital
- In vitro fertilization (IVF)
- Artificial insemination by husband (AIH)
- Artificial insemination by donor (AID) / Donor insemination (DI)
- Removal of oocytes from ovaries
- Retrieval of sperm from testis
- Retrieval of sperm from epididymis
- Frozen-thawed/fresh embryo transfer (ET)
- Microinjection intrafallopian transfer (MIFT)
- Fallopian replacement of eggs with delayed insemination (FREDI)
- Intra cytoplasmic sperm injection (ICSI)
- Pre-implantation genetic diagnosis (PGD)
- Storage of semen/sperm (donor/patient)
- Storage of oocyte (donor/patient)
- Storage of embryo (donor/patient)
- Storage of testicular tissue
- Storage of ovarian tissue
- Embryo donation
- Oocyte donation
- Assisted hatching
- Embryo micromanipulation (other than assisted hatching)
- Sex selection
- Surrogacy arrangement
- Other micromanipulation

### Kwong Wah Hospital – The University of Hong Kong Centre of Assisted Reproduction and Embryology
- In vitro fertilization (IVF)
- Artificial insemination by husband (AIH)
- Artificial insemination by donor (AID) / Donor insemination (DI)
- Removal of oocytes from ovaries
- Retrieval of sperm from testis
- Retrieval of sperm from epididymis
- Frozen-thawed/fresh embryo transfer (ET)
- Microinjection intrafallopian transfer (MIFT)
- Fallopian replacement of eggs with delayed insemination (FREDI)
- Intra cytoplasmic sperm injection (ICSI)
- Pre-implantation genetic diagnosis (PGD)
- Storage of semen/sperm (donor/patient)
- Storage of oocyte (donor/patient)
- Storage of embryo (donor/patient)
- Storage of testicular tissue
- Storage of ovarian tissue
- Embryo donation
- Oocyte donation
- Assisted hatching
- Embryo micromanipulation (other than assisted hatching)
- Sex selection
- Surrogacy arrangement
- Other micromanipulation
